5. In this episode, we're talking about why speaking in a foreign language can be so stressful.
在这一集中，我们将探讨为什么用外语说话会让人感到如此有压力。

6. So Pippa, do you ever get nervous speaking in a different language?
那么，皮帕，你在用另一种语言演讲时会不会感到紧张呢？

7. Yes, I learned French when I was younger and I was actually quite good at it, I think.
是的，我年轻时学过法语，而且我觉得自己还挺擅长的。

8. But I was really nervous when I was speaking French.
但是当我说法语的时候，我真的非常紧张。

9. How about you?
你呢？

10. Yeah, I've always felt like that with Spanish.
是的，我对西班牙语一直都是这种感觉。

11. I am scared to speak because I don't want to make mistakes, even though I know it's OK to make mistakes.
我害怕开口说话，因为我不想犯错，尽管我知道犯错并没有关系。

12. Well, in this episode of 6 Minute English, we'll be hearing about how to feel less nervous when you speak English.
在这一期的“6分钟英语”节目中，我们将了解到如何在说英语时减少紧张感。

但首先，我有个问题要问你，皮帕。

16. So, English has around one million words, but on average, how many words does a typical English speaker use in daily conversation?

那么，英语中大约有一百万个单词，但平均来说，一个普通的英语使用者在日常对话中会使用多少个单词呢？

17. Is it A between 2,000 and 3,000?

它是2000到3000之间的A吗？

18. between 20,000 and 30,000 or between 200,000 and 300,000?

是在2万到3万之间，还是在20万到30万之间呢？

19. I'm going to say A, 2,000 to 3,000.

我想说的是，大约2000到3000。

20. OK, well, we will find out later in the programme.

好的，我们会在节目后续环节中找到答案。

21. Now Pippa, you said you found it stressful speaking in French, even though you are quite good at it.

现在，皮帕，你说过用法语说话会让你感到很有压力，尽管你法语说得相当好。

22. Now someone else who has had this experience is Hanan Razak.

现在，还有另一位有过类似经历的人，那就是哈南·拉扎克。

23. Hanan is a journalist at BBC Arabic and also host of the podcast Beating Speaking Anxiety.

哈南是BBC阿拉伯语频道的记者，同时也主持着一档名为《战胜演讲焦虑》的播客节目。

24. Here she is telling BBC Learning English presenter Georgie about speaking English.

她正在向BBC英语学习频道的主持人乔治谈论说英语的话题。

25. My English was actually pretty good, but having conversations with people, I found it really difficult.

我的英语其实相当不错，但当真正与人进行对话时，我却发现这非常困难。

26. So when I first joined the BBC, the Learning English team made an assessment of my English level, which they used to do for all new joiners to see if they need any help or courses.

所以当我最初加入英国广播公司时，学习英语团队对我的英语水平进行了评估。他们会对所有新员工都进行这样的评估，以确定他们是否需要帮助或参加相关的培训课程。

27. My results were pretty good and I was fluent.

我的成绩相当不错，表达也非常流利。

28. But on that very same day, leaving the building and going to get some coffee, I couldn't really understand what the barista was saying and I felt pretty nervous to order coffee and was trying to stress every single word, hoping that my grammar is

correct and I'm pronouncing the words right.

但就在同一天，当我离开大楼去买咖啡的时候，我实在听不懂咖啡师在说什么，因此点咖啡时感到非常紧张。我努力地仔细发音，每一个单词都尽量发得准确，希望自己的语法没有错误，发音也正确。

29. Yeah, I'm sure that's a situation lots of people can relate to.

是的，我敢肯定很多人都能体会到这种情况。

30. Hanan's results on her English assessment were pretty good, but she was still pretty nervous to speak in English, for example when ordering a coffee in English.

哈南的英语测验成绩相当不错，但她用英语交谈时还是挺紧张的，比如用英语点咖啡的时候。

31. The modifier pretty means quite or a bit.

修饰词“pretty”意味着“相当”或“有点儿”。

32. Georgie says that Hanan's experience is something that lots of people can relate to.

乔治说，汉娜的经历是很多人都能感同身受的。

33. If you relate to a situation, you know what it feels like, usually because a similar thing has happened to you.

如果你能体会到某种情境带来的感受，那你就知道那是怎样的体验，通常是因为类似的事情也曾发生在你身上。

34. So lots of people feel nervous speaking another language, even if they're good at it, like Hanan.

所以很多人在说另一种语言时会感到紧张，即使他们很擅长这种语言，比如汉楠。

35. We can call this speaking anxiety.

我们可以将这种现象称为“演讲焦虑”。

36. Anxiety means an uncomfortable feeling or worry about something that is happening or could happen in the future.

焦虑是指对正在发生或未来可能发生的事情感到不适或担忧的一种情绪。

37. So why do so many people have anxiety about speaking a foreign language?

那么，为什么会有这么多人对说外语感到焦虑呢？

38. Experts think it's connected to the beliefs we have about ourselves.

专家认为，这与我们对自己所持有的认知观念有关。

39. Han Luo, professor of Chinese at Lafayette College in the United States, explains more to BBC Learning English presenter Georgie.

美国拉法耶特学院汉语教授韩洛向BBC学习英语节目的主持人乔治妮做了进一步解释。

40. You know, usually the beliefs that cause anxiety, especially severe anxiety, are, we call it irrational beliefs.

你知道，通常那些会导致焦虑，尤其是严重焦虑的信念，我们称之为非理性信念。

41. And also like some low self-perceptions, fear of negative evaluation, all those learner internal factors.

此外，还有一些诸如自我认知较低、害怕受到负面评价之类的学习者自身因素。

42. And Han says that learners worry about mistakes because they're scared of negative evaluation.

韩指出，学习者之所以会担心犯错，是因为他们害怕受到负面的评价。

43. In other words, that people will judge them for their mistakes and think badly of them.

换句话说，人们会因为他们的错误而评判他们，对他们产生负面的看法。

49. Self-perception and irrational beliefs are both internal factors.

自我认知与非理性信念都属于内在因素。

50. They come from inside your head, not from the people around you.

它们源自你的内心，而不是你周围的人。

51. So, for example, when you speak your first language,

所以，例如，当你使用自己的母语进行交流时，

52. You might feel confident and intelligent.

你可能会觉得自己既自信又聪明。

54. You can't show people what you're really like.

你无法向别人展示你真实的自我。

55. And this is frustrating.

而这真的让人感到沮丧。

56. But as we tell people all the time at BBC Learning English, mistakes are normal.
不过，正如我们在BBC Learning English里经常告诉大家的，犯错是很正常的。

57. You have to try to speak even though you make mistakes.
即使会犯错，你也必须努力去说话。

答案是2万到3万之间。
